SENTRY AQ MARDEL QUICK AID - gentian violet, capsaicin and aloe   liquid
Sergeant's Pet Care Products, Inc.

INDICATIONS AND USAGE
For the treatment and control of symptoms associated with "Ick" and protozoan parasites in tetras, cichlids, livebearers, catfish and goldfish caused by *ichthyopthirius multifili*, *Oodinium limneticum and Oodinium pillularis* parasites.

DIRECTIONS
Shake well before using. It is always wise to check your water quality levels to ensure they are within their acceptable ranges before administering any water treatment. Raise aquarium water temperature to 85 degrees F. Remove carbon from filter but continue filtration. Use 1 capful (5 mL) to treat 15 gallons of aquarium water daily for the first two days of treatment. On the third day, perform a 25% water change and then repeat dosage again. On the fourth day, evaluate your fish and the symptoms of Ick. If Ick is present, repeat above treatment cycle. If Ick is not present,perform a 25% water change lower water temperature and return carbon to aquarium filter. It is suggested to increase tank aeration during treatment as water holds less oxygen for the fish at higher temperatures.

NOTE
Consult a veterinarian or fish expert for assistance in diagnosis of disease causing organisms and treatment options.

PRECAUTIONS
For aquarium use only.

KEEP OUT OF REACH OF CHILDREN

WARNINGS
THIS PRODUCT IS INTENDED FOR THE EXCLUSIVE USE WITH THE ORNAMENTAL ORGANISMS INDICATED AND IS NOT INTENDED FOR USE WITH HUMANS OR FISH FOR HUMAN CONSUMPTION. Even though this product is less staining than malachite green based products, there still remains a risk of staining decorations, plastic plants and silicone sealant in tank. If possible, remove these items from the aquarium before treatment.

ACTIVE INGREDIENTS
Gentian Violet, Capsaicin, Aloe
